OBJECTIVE

BCA undergraduate specializing in frontend and MERN stack development, with an interest in building modern, responsive, and scalable web applications. Experienced in coordinating events and working in teams, with good problem-solving skills. Looking to gain hands-on experience and contribute to real-world full-stack projects.

EXPERIENCE

Frontend Intern – Floks Minds | Jan 2026 - Present

- Built responsive and modern frontend interfaces using React.js and Next.js with a strong focus on clean UI/UX design.
- Developed reusable components, dynamic pages, and seamless user experiences while following modern frontend development practices.
- Implemented features such as global state management, advanced search functionality, responsive layouts, and performance-optimized user interfaces for web applications.

PROJECTS

CraftSphere - A centralized platform for Entrepreneurs

Tech Stack: Next.js, Node.js, MongoDB

CreateSphere is a centralized platform that empowers entrepreneurs to showcase their products, encourages the effective use of waste and surplus materials through AI-driven ideas, and offers a learning space to support creativity and earning opportunities.

Marion - Fashion Ecommerce Platform

Tech Stack: Next.js, Node.js, MongoDB

Modern fashion ecommerce web application built with Next.js, focused on creating responsive and visually appealing user interfaces with interactive product browsing and reusable components.
